SKILLS

HTML   CSS   Javascript

React   Tailwind CSS

Express   MongoDB   Node js

Redux   Python   SQL

Wordpress   Java

PROJECTS

MERN-Blog

A Full MERN-stack project
- Created Sign-in and sign-up pages with Google OAuth, and authentication
- Created a Dashboard for updating user data and an Admin Page for website data overview
- Implemented dark mode and used Redux Toolkit for state management
- Developed post, comment sections as part of the website features

Angular CRUD operation with firebase

📅 07/2022 - 08/2022
- Performed CRUD operations using Firebase Database
- Developed Login, Registration, and Employee Dashboard Pages
- Implemented functionality to add, read, modify, and delete data in the dashboard and database

Website Pages using Wordpress

📅 03/2023 - 04/2023
- Created different pages for various websites using Wordpress

Negotiation Chatbot

📅 09/2021 - 01/2022
- Developed a negotiation chatbot to facilitate customer price negotiations on products

SUMMARY

A technically adept individual with a strong foundation in web development technologies including HTML/CSS, JavaScript, React, and more. My educational background in computer engineering from Sarvajanik College of Engineering and Technology, coupled with hands-on internship experiences, has equipped me with the skills to develop and work on various web projects. I have demonstrated proficiency in both front-end and back-end development stacks, particularly MERN, and have a keen interest in continuing to expand my skills in the field.

EXPERIENCE

Internship

Techomax Solution   📅 02/2024 - Present
- Learned about React, Redux, TailwindCSS, Express, Node JS, and MongoDB
- Created projects based on React and MERN like Portfolio, E-commerce, Blog website etc

Internship

BrainOvision   📅 06/2023 - 08/2023
- Learned about Python, Python libraries like Numpy, Pandas, Matplotlib
- Learned how to manipulate data using pandas and how to represent the data using matplotlib

Internship

Rainbow Service   📅 01/2023 - 04/2023
- Learned about HTML, CSS, Javascript, then created projects
- Learned about jQuery and PHP, then created a project
- Learned about WordPress and created a website

Internship

BosLeo Technology Private Limited   📅 07/2022 - 07/2022
- Learned about different languages like Go, Angular, Kotlin, Swift etc.
- Assigned to create a project based on Angular

EDUCATION

B.Tech/B.E. (Computers)

Sarvajanik College of Engineering and Technology, Surat
📅 07/2019 - 07/2023   📍 Surat

CGPA **7.5** / 10

12th

Agasti School   📅 2019   📍 Ankleshwar

Percentage **77** / 100

10th

Swaminarayan Gurukul Vidhayalay 📅 2017   📍 Ankleshwar

Percentage **82** / 100
